Electronic form developed with, and administered on Fastfield MDC platform

HOW TO ADMINISTER THE QUESTIONNAIRE

The questionnaire is very simple, and easy to administer; it takes less than 10 minutes to complete an interview

You can find the English, French, and Portuguese versions of the questionnaire in the "Forms" folder; choose the appropriate version.

The survey starts with two filter questions. The default answer for each question is "NO" If the respondent answers "YES" to both questions, the survey will automatically end!

Filter question 1
Have you been vaccinated against COVID-19 (Coronavirus)?

Yes

No

Filter question 2
If you are offered a vaccine against COVID-19 (Coronavirus) at no charge, will you get vaccinated?

Yes

(end survey)

No

(continue survey) →

Once you are done with the "filter" section, you then begin the survey. The "Start survey" section has two entries that are mandatory; the country where you are located, and the time you completed the interview

START SURVEY

Today's Date: (This will be automatically inserted, and is based on the system settings on your device)

Select Country*: You must select the country where you are (this field is required)

Location / GPS: Click on this field, and confirm the geographic coordinates for your location

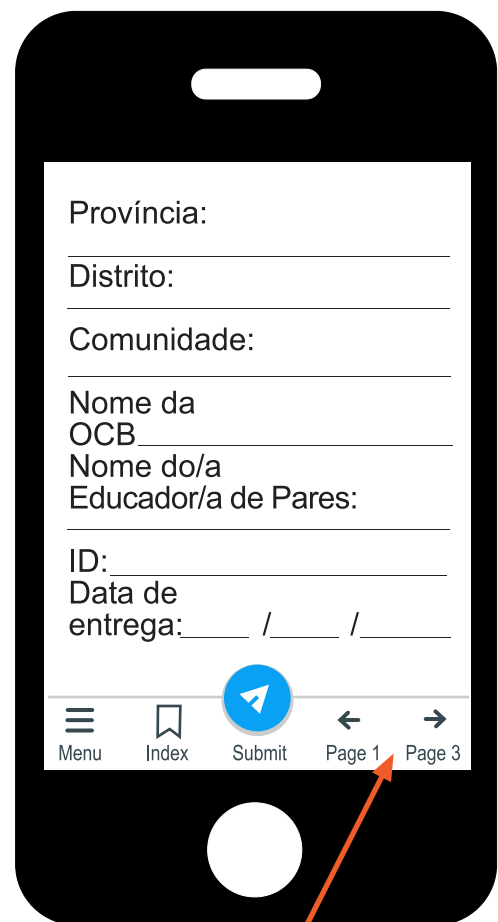

Survey start time: (This will be automatically inserted, and is based on your device settings)

Survey end time*: You must select time you completed the interview (this field is required)

You must provide information in the fields that are required, or you will not be able to submit the completed questionnaire

The questionnaire contains seven (7) pages, and you can easily navigate the pages using the navigation controls at the bottom of the screen

Provincia: _____
